Summary

Self-taught Front-end Developer with expertise in HTML, CSS, and JavaScript. Adept at problem-solving, continuously expanding my knowledge through online courses and personal projects, and am currently advancing my ReactJS skills.

Technical Skills

- **Programming Languages:** HTML, CSS, JavaScript, Python, and ReactJS
- **Frameworks:** Bootstrap
- **Version Control:** GitHub
- **Databases:** PostgreSQL
- **Tools:** Visual Studio, PyCharm
- **Productivity Software:** MS Word, MS Excel, MS PowerPoint
- **Typing Speed:** 60 WPM with 95%+ accuracy

Projects

❖ Tic Tac Toe Game – HTML, CSS and JavaScript

- Developed a user-friendly interface for a web-based Tic-Tac-Toe game using HTML, CSS, and JavaScript.
- Programmed game mechanics, including player turns, win conditions, and tie detection with JavaScript. Conducted thorough testing and debugging to identify and resolve issues or bugs in the front-end code.
- Conducted extensive testing and debugging to ensure smooth gameplay and resolve front-end issues.
- Applied strong problem-solving skills to deliver a fully functional and polished game.

❖ Snake Game – Python

- Built a classic single-player Snake Game using Python in PyCharm.
- Implemented game rules and logic, such as snake growth, collision detection, and game-over conditions.
- Enhanced visual appeal with the Turtle Library for smooth rendering.
- Integrated Python's random function for dynamic food placement and utilized the time function to track elapsed time.
